1.

Pre-Op – Preparation

Setting The Foundation For A
Smooth Recovery.

With guidance from your rehab team and surgeon, we ensure you're physically and mentally ready for surgery. Our advanced cryotherapy solutions help reduce pre-surgical inflammation, setting the stage for success.

CONSULTATIONS

CRYOTHERAPY

EXERCISES

2.

Immediate Post-Op – Critical Moments

There For You During And After The Big Day.

Surgery is just one step of the journey. RE3 equips you with effective cryotherapy treatments to manage swelling, pain, and inflammation immediately after your procedure. This helps preserve muscle strength and accelerates healing.

CONTROL SWELLING

3.

Post-Op Recovery – Getting Back to Your Best Self

Because Recovery Matters.

We're with you every step of the way. The RE3 system provides smarter, easier cryotherapy to help you recover faster from home, feel better sooner, and return to doing what you love. Together, we support your journey to a stronger, healthier you.

" *RE3* was perfect for my daughter's acl surgery recovery. Allows movement while she is wearing it."

- BRIDGET D. VERIFIED PURCHASER

Grab. Insert. Wrap. Go.

The RE3 system contains 3 essential items: ICECORE™ Blankets, which fit into a compression brace and a water-resistant travel case - designed for effective, mess-free recovery.

ICECORE™ Blankets stay colder, longer—effectively keeping your injury site at the optimal 10 - 13°C.

- ✓ NATURAL RELIABLE PAIN RELIEF
- ✓ LESS RELIANCE ON MEDICATION

Comfortable, flexible **Neoprene Compression Brace** keeps ice targeted and offers support without restricting movement.

- ✓ DESIGNED FOR TARGETED RELIEF
- ✓ PHYSICAL SUPPORT AND MOBILITY

X2 SIZES AVAILABLE

Water-resistant Travel Case keeps ICECORE™ Blankets cold for hours, making it easy to maintain a regular icing routine.

- ✓ CONSISTENT APPLICATION IS EASY
- ✓ PORTABLE, NO CORDS, NO MACHINES

TURN A SETBACK INTO A COMEBACK

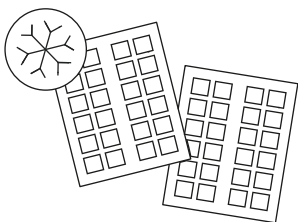

Stays Cold for **Hours**

Pop in your freezer overnight. Wrap the RE3 Brace to your leg with a Tubigrip, or light towel between skin. Relieve pain and reduce swelling.

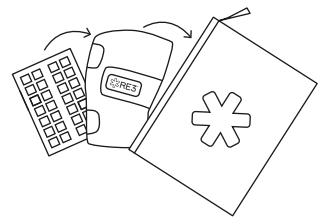

1. Grab your ICECORE™ blanket

2. Insert into the compression brace

3. Wrap your injury & keep moving
